COLORED CUT GLASS

We are decorating colored glass with dull-cut which can be varied in many ways, usually with the design matching the use of glass. That is why you will find hops on a bier mug or wine-grapes on a roman whine glass.

ARTISTIC GLASS

VASES, BOWLS AND GLASSES

Vases and bowls are made by master glassblowers without using any molds. Therefore is every piece unique with recognizable “handwriting” of each glassblower. The chalice of drinking glasses is usually blown into a mould and than it is decorated by

ANIMALS

Glass animals are also shaped without any molds just using the glassblower’s tools. We take a special care to keep the shape and proportions as close to the real animals as the physics of the glass allows.

FLOWERS

Artistic flowers are a great supplement to any modern household. We offer over twenty shapes in many colours in order to match to any taste.

FRUITS AND VEGETABLES

Glass fruits and vegetables look great on tables, in a display or on furniture. They make every room brighter and more fun to be in.

OTHER DECORATIVE ITEMS

These chess sets are made of glass bodies with silver or gold coated tops. The chessboard is also made of glass with the fields consisting of clear and etched surfaces. The complete set is packed in a luxurious case lined with satin.

These chess figures are made by pressing colored glasses into metal moulds with fine engraving in order to achieve a great level of detail. The packing in a luxurious case lined with satin is a matter of course.

GLASS IN FORGED STANDS

We cooperate with skillful blacksmiths who prepare unique hand-forged stands. Our best glass-makers blow colored or clear glass into these stands so that it cannot be taken out any more. Every single piece is unique which we confirm by a certificate enclosed to each art-work.

The painting technique of high enamel differentiates from the other designs. It uses gold as a background and 3D-flowers and lines are put on top of it and gilded again in the last stage.
